Case studies show that SAFe® delivers:

SOFTWARE QUALITY
50%
IMPROVEMENT

McKenna Consultants Scaled Agile Services

"McKenna Consultants have successfully supported and delivered the Agile training programme that has been going on at EMIS since February 2014. They have provided training and hands on coaching to over 250 members of our development team including developers, testers, product owners, project managers, senior managers, UX and commercial. They have helped our development teams to implement ideas from SCRUM, agile and lean to make us a more efficient department resulting in happier teams. McKenna Consultants' outstanding knowledge and experience in creating and improving agile teams meant that they were the perfect agile partner for us. We will continue to work with McKenna Consultants to enable us to continually improve."

David Weir, Development Director

McKenna Consultants

See overleaf how our range of training, coaching and consultancy services are tailored to make your team succeed with SAFe®!

TRAINING

Certified Training

McKenna Consultants provide a wide range of SAFe® training courses leading to certification including:

Course	Audience
Leading SAFe®	Executives, Managers and Change Agents
SAFe® ScrumXP For Teams	Software Developers, Testers, Project Managers, Product Managers
SAFe® Product Manager Product Owner	Product Managers, Product Owners

Non-Certified Training

McKenna Consultants provide a wide range of non-certified SAFe® training courses including:

Course	Audience
SAFe® Scrum Master	Scrum Masters
SAFe® Product Owner	Product Managers, Product Owners
SAFe® Program Portfolio Management	Executives, Managers, Product Directors, Program Directors

CONSULTANCY

McKenna Consultants provide a complete set of consultancy services for clients implementing SAFe® including:

- Executive Overview
- Health Check Prior To Adoption
- Ongoing Health Checks
- Process Design And Customisation

These sessions are designed to allow you to identify and ROAM risks, customise the core SAFe® practices and processes for your organisation and allow you to create an organisational change plan around your SAFe® adoption

COACHING

Your staff may need coaching beyond their basic training to help them become leaders and SAFe® advocates within the organisation. They may simply need some help adapting to the new SAFe® method of working. Our team can work with you at all levels of your organisation including:

- Portfolio
- Program
- Team

Coaching services cement the new practices and help to create a long-lived Agile culture within your organisation.

LAUNCH SUPPORT

Launching your first SAFe® Agile Release Train can be daunting. McKenna Consultants can help you with the preparation and running of your first Program Increment planning session and your first Sprint and Product planning sessions. The focus of these sessions is always on encouraging and coaching your team to run these events with the help and support of our experienced team.
